COLUMBIA, ADAIR COUNTY, KENTUCKY, WEDNESDAY OCTOBER 5, 1910.

NUMBER 47

ATTEMPTS SUICIDE.

Geo. Henry Squires, Son of Porter Squires, Attempts Suicide by Shooting Himself.

DEED WAS PERPETRATED NEAR CAMP KNOX.

Geo. Henry Squires, a son of Mr. Porter Squires, a prosperous farmer who lives near Portland, but in the edge of Green county, attempted to take his own life Monday afternoon the 25th of last month. He was in company with Will Johnston and they were between Camp Knox and Milltown, in Adair county. The young men were talking and Squires stated that he intended to kill himself. Johnston said to him, "George, you are joking, you know that you do not want to take your own life." A few more words were passed and Johnston turned aside. Immediately Squires fired a ball into his own breast. It passed clear through his body, and he fell. Johnston went to the home of the young man's parents and Dr. Barker was called. When the physician reached the scene the young man was living, and he was placed on a bed and conveyed home. The latest is that he is improving and that it is generally believed that he will recover. Much sympathy is felt for the young man and his father and mother.

Alexander-Simpson.

Wednesday evening of last week, in the city of Burkeville, Miss. Hooker Alexander, the accomplished daughter of Mr. and Mrs. F. A. Alexander, was married in the presence of many friends to Dr. H. B. Simpson, a prominent young physician of Breeding this county. After the ceremony a reception was held at the home of the bride's parents, a most delightful repeat being served. The couple received many beautiful and costly presents. It is our understanding that their home for the present will be at Breeding, where the engaged are a fine practice.

Twenty-Two Indictments.

The Taylor county grand jury returned 22 indictments, classified as follows: Murder 1; false swearing 1; petit larceny 2; detaining a woman against her will 1; malicious wounding 1; gambling 5; breach of peace 5; shooting a high way 2; drawing a deadly weapon on another 1; carrying concealed deadly weapons 1; selling liquid beverage in local option territory 2; selling liquor in local option territory 1.

The christening of the new organ at the Presbyterian church drew a large audience last Wednesday evening. A program had been made up by Prof. Presley Clark, who led the singing, assisted by a number of young ladies and gentlemen. Miss Alice Walker presided at the organ, an instrument that has a most melodious tone, every note being drawn artistically and beautifully. The singing was well timed, the many voices enchanting—delightfully pleasing to all present. Capt. W. B. Bradshaw was present, offering prayer and made a short and interesting talk.

The only disease that is giving the physicians of Adair county trouble at this time is diphtheria. It has been raging in several different neighborhoods and several deaths have occurred among children. The Board of Health is doing everything in its power to stamp out the disease. Mr. and Mrs. A. D. Patterson's little son was alarmingly afflicted last week. A little daughter of Mr. and Mrs. Elmo Strange has recovered from an attack.

Mr. Wm. Francis will not remove from this county to near Campbellsville until the first of next year. He has resided in Adair county quite a number of years, making a most excellent citizen. We will dislike to see him take his departure, but take pleasure in commending him and his family to the people of Taylor county.

Mr. G. Paul Smythe, an attorney and real estate man of this place, has been tendered a position in the Census Department, Washington, but on account of his business engagements here he respectfully declined. Mr. Smythe's steady habits, coupled with honesty and fidelity to his party, pointed him out as a suitable person for the position.

L. B. Cain sold to W. T. Dohoney 13 steers for \$254; to J. C. Dohoney 6 steers for \$113.34; to W. R. Dohoney one steer for \$31; to Brack Massie two cows and one heifer \$86; to Geo. Herriford 11 cattle \$339.60; to John Riall one cow for \$20; one cow to Allen Rose for \$55; two cows to G. W. Kell for \$70; to J. F. Pendleton 8 cattle for \$170.99; to Rufus Crawhorn one more for \$175.

To Our Subscribers.

We earnestly ask our subscribers to read carefully the following dispatch from Washington and if those who are in arrears will pay up at once will greatly aid us and will prevent your name from being dropped from our list. The dispatch follows: "Newspapers over the entire country have been given to understand that Uncle Sam's postoffice department meant business about two years ago when it said that all mail subscriptions in the future must not be allowed to be in arrears over twelve months. Newspapers in Illinois are now being called on by the postal officials to send them a sworn list of their subscribers, indicating how many mail subscribers are in arrears over one year. The department is headed south and as rapidly as possible covering the nation. "The enforcement of this means a revolution in the conducting of a country newspaper, where credit was generously extended by the publishers to their subscribers because they knew the subscribers would pay."

It will be the purpose of the Adair County News to obey the law, hence we urge all subscribers who know they are behind, to send in their remittance at once. We do not want to lose a patron, but if there are those who are as much as one year in arrears, and they fail to pay, their names will be stricken from our subscription list.

The diphtheria in the town of Columbia has about run its course. There were only two cases. A. D. Patterson's little boy and a daughter of Elmo Strange. Two children of Mr. Crit Yates were slightly effected, but they are better.

Mr. Peter Bryant and Miss Ethel Bryant were married in the Clear Spring country Sunday. The ceremony was performed in Pleasant View church

Dr. Holmes at the Presbyterian Church.

Dr. Holmes, of Lebanon, Tenn., who did the preaching at our Adair evangelistic services, preached a very strong sermon at the Presbyterian church, this place, Sunday night, and on Monday morning left for his home. During the meeting at Union there were about fifty conversions and the church greatly revived. Twenty-five of those who made professions united with the Presbyterian Church, the remainder will unite with other churches in that locality.

There was no truth in the report that the Board of Health had quarantined against people coming into and going from Columbia. There are a few cases of diphtheria in this county, but they are being successfully treated. It is believed that in a few days the disease will be stamped out.

Mr. Calvin Acree reports to The News that a buggy which was the property of his wife, and which was standing on the roadside, near his residence, was cut by pieces recently by some very bad men. An effort will be made to learn the names of the guilty parties.

The farmers of this county were very busy last week, breaking wheat ground, cutting tobacco and corn, consequently business in Columbia was not unusually brisk. Every body is for the farmer, hence men who are engaged in other business can well afford to wait.

We learn from the Taylor County Inquirer that Mr. J. Smith Clark, of Park, Ky., has leased the new Merchant's Hotel, Campbellsville, which will be completed by the first of December, at which time Mr. Clark and family will take charge.

Holmes, of Tennessee and Presley Clark, singer, of Bowling Green, assisted the pastor, Rev. J. R. Crawford. The entire community was greatly benefited by the excellent character of the work done by these successful evangelists. All the churches of the Gradyville section took an active part in the meeting and will share in its fruits.

Hon. Lillburn Phelps is on the sick list, nothing serious we hope. We are under the impression that it is a case of too much reflection on past pleasant memories and future prospects. It is very hard to be absent from those we love when hills and rivers divide us and the loved one is far away.

The hills may tower, The waves may rise And roll between 'My home and me! 'Tis shall my quiverless memories Turn with undying love to thee.

One of our brightest and most agreeable young ladies has joined heart and hand with Dr. Lester and gone to make his life brighter, but her friends who are left behind feel very lonely without Will W., now Mrs. Lester.

One of our handsome dark eyed girls has gone to Bazaar Kansas to visit her sister, Mrs. Eastman. Mrs. Eastman was once our pet girl friend.

Mrs. Russell and Mrs. Judge Williams started out bright and early on a trip last Tuesday morning. They had a good horse and buggy, but dear me! what a circuitous route and what rough roads. They got on the wrong road once and had to turn back about a mile. However, after many ups and downs we reached the home of Mr. George Blakeley and found there a very pleasant family. Mrs. Blakeley is the daughter of the late Dr. Aker. We were greatly attracted by the children, who are all quite pretty and bright. Mr. Blakeley is a holiness man and knows a number of the "Living Water Songs". Mrs. Russell is also warm advocate of that doctrine. After dinner we walked through the orchard in company with the children and Mrs. Blakeley and found some nice apples. We brought some of them home with us, also a nice bouquet each. We met there a very pleasant and interesting gentleman who is deputy for our County Court Clerk. Mr. Wright informed us that he married a sister of our County Superintendent. He says his wife greatly resembles her brother. She must be handsome.

A Baptist minister preached for us last Sunday morning—Bro. Waldrop. His sermon was a feast for the mind and soul. We cannot remember his place of residence. He is quite an old gentleman. We knew as soon as he began to preach that he had heard him preach some place, some time ago in our church. After the services ended I went to him and began to investigate and found that I had heard him preach in Lexington when I was a young school girl.

With best wishes for our Columbia friends, we bid them, As Revoir.

Death of a Little Child.

A beautiful little bud has been plucked from the garden of this world and transplanted in the paradise of our Lord to bloom in the bright beyond.

On Sept. 6, 1910, the death angel visited the home of N. G. and Nora Myers, and took their darling little Hermon home. Hermon was a bright looking baby boy, but his stay with father and mother in this world was of short duration, but alas! how soon are the fond hopes of loving parents blighted by the cold chilly hand of death. His short little life was by no means devoid of good and everything that loving hands could do for him was done, but little Hermon left the impress of his sweet life on the fond hearts of his parents, grandmother and many other friends and relatives and they will never forget those tender little chups and sweet little smiles. He had little cousins who preceded him to the better clime and he is now with them in Heaven. Little Hermon came to cheer the home for awhile but his little place is now vacant in the home; it is hard to part with those whom we love so dear, but Gods will be done. Our sympathies are with the parents. They can not call their little darling baby back but they can go where he is. Weep not for he is at rest. Little Hermon's home was in Indiana, and was laid to rest in the Greenwood Cemetery to await the Resurrection.

His Aunt, Mattie K.

There's no Excuse.

That Kentucky is so far down on the list of illiteracy is due in many respects to the laxity of the parents. Evidence of this is shown by the recent announcement of Superintendent of Public Instruction Ellsworth Regenstein that the per capita for the coming school year will be \$4.00 as heretofore. That is, the State of Kentucky will devote \$4.00 to the education of every child between the ages of six and twenty-one years old. This is a more liberal response to education than made by many other States, but, the local taxation on the other hand is much less. The discrepancy from this is said to be one of the reasons of illiteracy among the whites. Since the State furnishes this amount every parent should see that their children obtain the advantages therefrom. --Ex.

His Yard a Morgue.

The bodies of 16 infants were unearthed recently in the yard and garden of William Griffiths, an insurance man living in London, England. Formerly the house was occupied by an undertaker. After the Griffiths family took possession, he decided to spade the garden and to his surprise came upon boxes a few inches below the surface.

When Mr. Griffiths made his discovery he called a policeman. The officer reported to his superiors and one by one the coffins were removed until 11 were piled up in the garden. Each contained the body of a child. There came five uncoffined bodies, each wrapped in brown paper and sawdust.

The police are investigating the peculiar discovery. Post mortem examinations will be

made of the remains in an effort to determine whether the children were murdered or whether it was a plain case of an undertaker beating those with whom he had contracted to make proper burials.

Lots of Fun.

A memory game is one of the most amusing and interesting games to play there is. It is played with two packs of cards of any sort, of course the two packs being exactly alike. The one pack is laid in the middle of the table, face down, and the other pack distributed among the players, giving each one ten or twelve, as it is almost impossible to remember any more.

The cards are laid in a row, face upward upon the table. Any one may begin the game by asking a question, either foolish or otherwise, as: "Who will be the first one to be married?" or "Which one wears the most false hair?" at the same time turning up a card on the center pack.

The one whose card matches it, takes his own card and lays it face down on top of the card drawn from the pile, saying, "I will be the one to be married first" or whatever the question may have been.

Then the next person asks a question, probably dealing with some characteristic as "Who is the biggest eater in the crowd?" turning up another card from the pile. This is continued on around the table until all the cards have been matched, and then the memory part comes in. Each person is required to tell all the prophecies or characteristics that have fallen to him, one after the other, as rapidly as possible. If he halts, he is allowed ten or fifteen seconds, or some one counts the same number slowly, and if he cannot continue, he is out of the race. The one remembering the most and best, is the winner.

The Nomination of Powers.

The nomination of Caleb Powers as the Republican candidate for Congress in the Eleventh district is certainly no honor to his party, his district or the State.

A majority of the party, however, in his district have decided to bear the burden of his candidacy, but it remains to be seen whether or not a majority of the people there will approve it and suffer themselves to be represented in the National House of Representatives by a man with Powers' record. Thrice convicted by juries of murder and barely escaping a fourth conviction; finally securing his freedom through the over indulgent exercise of executive clemency, he fought a bitter fight in the recent primary, upon the idea of his having been a political martyr; and there is a doubt whether or not among his supporters, those who believed him innocent outnumbered those who thought otherwise and, in many instances approved what he was charged with doing in the assassination of William Goebel.

His nomination is unfortunate from every standpoint upon which it may be viewed. It calls for broader consideration than that of mere partisan politics. There ought to be enough Democrats, high-minded Republicans and independents in that district to combine and defeat him, and to avert the reproach which his election would cast upon the district and upon the State.—Kentucky State Journal.

ROCKY ROAD FOR POWERS.

Popularity of Democratic Nominee Recognized by Republicans

The following from a staff correspondent of the Louisville Herald the leading Republican paper of Kentucky, is interesting reading.

Somerset, Ky., Sept. 23—Caleb Powers, the Republican nominee for Congress in the Eleventh District, will not find his pathway strewn with flowers in his campaign for election. Indeed, if the writer is not very much mistaken, Powers will find some thorns, the largest and most prickly being represented in the person of Eliza Bertram, of Clinton county, the Democratic candidate.

The writer is not predicting the defeat of Powers. Not by any means. On the contrary, he firmly believes that the Republican nominee will be victorious in November, but of one thing he is convinced, and that is the Democrats of the Eleventh District could not have possibly selected a stronger nominee than Senator Bertram.

Bertram is a real man. He stands for something and he is a man of the people. His record in the State Senate is one that is pleasing to his constituents, even his stand for the county unit bill, which is distasteful to thousands of voters in other sections of the State.

Bertram took the stand he did because he believed it to be right. Once let him think he is right, it is impossible to swerve him.

By the mountain people Senator Bertram is held in the highest regard. He is one of them. He knows their faults and he knows their good qualities as well as any man.

That he is popular—well, it is only necessary to point to the fact that he was elected Senator in a district composed of five counties, all of which are in the Eleventh District, which have a normal Republican majority of about 3,000.

When Mr. Bertram announced his candidacy for the State Senate even the Democrats laughed. Gladly they gave him the nomination, and then they ceased to take an interest in the race.

Not so with Mr. Bertram, however; he was in the fight to win. He organized every precinct in the district and he made a thorough canvass, speaking at every point a crowd assembled.

The result was that he won by a handsome majority, surprising both Democrats and Republicans. If he was surprised by the result he did not let the fact be known.

Now he is going to make the same sort of campaign to be elected to Congress as a Democrat in a district that is Republican by 20,000 majority. Within an hour after he was given the nomination he had called a number of his close friends about him and was mapping out his plan of campaign. Bertram told his friends and advisers that he was in the fight to win, and he proposed to spend every minute of his time from now until the election making speeches and organizing.

The old politicians were invited to confer with him, were very much impressed with his earnest-

ness. They realized that they had nominated a man who was going to make a real fight to win, even though he was confronted by insurmountable obstacles.

Then they became enthusiastic, and in less time than it takes to tell it, they began to rise a campaign fund.

An Elephant on hands.

The Republicans have an elephant—we shall not say "a white elephant"—on their hands in Caleb Powers. His nomination for Congress by a majority so decisive is a striking instance of party spirit quite deaf to prudence if not to reason. He will probably be beaten for election. When the Republicans of Kentucky made common cause with Taylor and Powers they took upon themselves a load of responsibility and when the Governor pardoned them he invited obloquy. The passions of 1900 are no longer flaming. Ten years make an era in American politics. The Republicans of the Eleventh district are now themselves divided.

The nomination of Powers over Edwards sprang from unthinking partyism reckless of consequences and must inevitably lead to the election of a Democrat in November if the Democrats put their best foot foremost. Of Powers' guilty complicity in the Goebel assassination the Courier-Journal has never entertained a doubt and cannot see how any intelligent man, reading the evidence, can entertain a doubt. We should hate to see such a person represent Kentucky in the Congress of the United States.—Courier-Journal.

Heroism in Common Life.

We need not go back to ancient days nor read of Marathon and Thermopylae to call a muster roll of heroes. The daily papers furnish stories of heroism which stir the blood and lift us above the commonplace of the sordid days into a purer atmosphere. Two young girls, classmates and dear friends, lost their lives by drowning at Wellesley, Mass., one summer day lately. One ventured beyond her depth; the other, who could swim a little, forgot her own safety and struck out to save her friend. Both perished, but the one who tried to save the other was as much a heroine as if she had succeeded. A fire occurred one July day in a tenement in Brooklyn. James McGrath, a fireman, climbed to the height of four stories, walked on a narrow ledge through the heat and smoke, and with incredible courage, in the face of terrific danger, saved an old man who was ill and unable to help himself from impending death. The crowd on the sidewalk called to McGrath to come back, but he pressed forward and rescued the man, counting not his own life dear. Both were saved.

A woman in great peril caught upon a Ferris wheel and suspended between earth and sky, was rescued the other day from her plight by a workman named John Carroll. He had a crippled left hand, but managed notwithstanding this to reach the woman and drag her into safety. The man who sees what to do and does it with quick presence of mind and with complete unconsciousness of self is a modern hero. He may be a policeman, an engineer, a telegraph operator, a coast guard, a signal service man, or anybody unknown to fame, but the stuff of which heroes are made is in him.—Margaret E. Sangster, in the Christian Herald.

Tuberculosis Germs

"If a person who has tuberculosis drinks out of a cup and then another person should drink out of the same cup before the cup has been washed, the germ may be transmitted in this way," says James Jenkins, Jr., in Woman's Home Companion for October. "Boiling water kills germs as effectively as any antiseptic, and dishes should never be considered absolutely clean that have not been washed in this way. Two persons should never use the same towel. The plan of individual washstands, which is so commonly used on the continent in Europe, should be more generally adopted in America.

"If you have a telephone in your house, the mouthpiece of the telephone should be cleaned every day, just as we clean the dishes we use on the table, and should be thoroughly disinfected at least twice a week. Germs pneumonia, bronchitis, tuberculosis and other things may be caught from a telephone.

"A good formula for a disinfectant is a few drops of formaldehyde in a two-ounce bottle of water, adding enough extract of lavender or some other pleasant-smelling extract, so that the odor remaining after the mouthpiece is cleaned will be agreeable. Any druggist could mix such a disinfectant for you very easily and inexpensively."—From Woman's Home Companion for October.

Pike Leads on Dog Tax.

Pike county pays more to schools on the dog tax than any other county in the State, being long on dogs and short on sheep. The school fund of that county received a total of \$2,140 from the dog tax last year, this being much more than was paid, even in the other mountain counties. In most of the Bluegrass counties there was nothing paid to the school fund from the dog tax as the amount paid out for losses on sheep was more than the collection on dogs.

In several counties in Kentucky there are no negro schools, for the reason that there are no negroes to attend. In Elliott, Johnson, Jackson, Letcher and Martin there are so few negroes that there is only one small school in the county. This is rather surprising information to many persons, who believed the negroes had spread over the whole State, but it proves true by the reports.

The Freaks of Lightning.

Lightning plays some queer pranks in old Kentucky. Twice it has selected the Clay monument at Lexington for its shining mark—and will again while the great shaft offers itself to the electric currents of the skies and the storms. It is a showing that lightning will strike in the same place—and often if like conditions are preserved—and it is a fact most regrettable that the monument to the Great Commoner is so constructed as to invite—and not defy—the lightning.

And there was the freak of lightning in Hopkinsville when it struck the eye glasses of a venerable woman from their place melted the rims and dropped the glasses to the floor unbroken. The test prank is reported from

Boyle county, where a bolt of lightning disgusted at the law delays, split a tree which had been the fruitful cause of much legislation and bitterness, made an appeal to the court of appeals unnecessary and destroyed a lot of legal lore and lawyers fees at one and the same time.

From thence the bolt jumped to Marrowbone, where Pardoned Powers made the winning speech of his campaign, cut the roof from the barn and let the winds of heaven and the rains upon the hay therein, and killed a pig before it quit its pranks.

Business Outlook.

The iron and steel industry has long been regarded as a business barometer. During the past week orders have been placed for more pigiron than was ever before ordered at one time. This requisition resulted from increased orders for all kinds of railroad, structural and other steel, indicating that business along these lines is still improving.

The railroads of the country are still increasing their equipment. The great shipyards have secured contracts for warships for foreign nations. In every large city of the country buildings are projected which will require tons of steel. Legislation in several states compels wooden bridges to be replaced with iron. The consumption of steel in the manufacture of machinery, tools and novelties is larger than ever before. All this is due not only to consumption at home, but to increasing orders from abroad. But recently manufacturers representing several lines of trade, organized an export association for the purpose of giving particular attention to the foreign market.

With such activity in iron and steel production all other products must increase in sympathy. Consequently there is ground for believing that no matter how the elections in November may turn, business will not be seriously impeded. J. J. Hill recently said that the business of this country was now so independent of its politics as not to be seriously disturbed whatever the results of an election.

Beautiful Death Bed Scenes.

It is related of the late Prof. Henry Drummond that when he was about to exchange time for eternity, he asked his physician to play for him the hymn beginning "I'm not ashamed to own my Lord." As the physician did so, the dying man tried to sing the words which he so much liked and which so well expressed his faith. A most beautiful conclusion of a consecrated and highly useful life! In life and in death he worthily confessed his Master.

While Miss Frances E. Willard lay dying, a picture of Jesus was hanging near her bed, the gift of Lady Henry Somerset. Turning to her nurse, the dying woman said gently, "I want you to take this picture to Lady Somerset, but before giving it to her have engraved upon it these words: 'Only the golden rule of the Christ, can bring the golden age of man.'" No wonder the dying words of one who could think out such a grand thought at such a moment should have been, "How beautiful to be with God."

Free Remedy For Weak Bowels
There are two forms of bodily cleanliness, the external and the internal. The one is for your pride in yourself; the other for your life and health. Both are important, but of vastly more importance in the long run is the internal cleanliness. This is one point that all should watch about their body—the cleanliness of the bowels. Keep them clean and free from obstruction. To do this you must use one or two movements of the bowels every day. Do this naturally—that is, without the aid of any medicine. Obtain aid of some kind. After studying about this matter, you will find that the only reliable way to get a day, but blind you up about this matter. FOR CONGRESS

HON. ELZY BERTRAM
OF CLINTON COUNTY.

Mr. W. H. Jones, who is the postmaster at Glasgow, has been nominated by the Republicans of the Third district for Congress.

Four thousand persons lost their lives in the recent war in Nicaragua, according to Jacob Weinberger, manager of the Bluefields Steamship Company at Bluefields, Nicaragua.

The Republican State Convention of New Hampshire adopted a platform prepared by the "progressives" and indorsed President Taft for "carrying out to such a large degree the policies of Theodore Roosevelt."

The Democrats of New York met in Rochester last week, nominated a full State ticket, headed by John A. Dix, of Washington county, for Governor. Democrats are hopeful of carrying the State.

Vice President Sherman is not in it with Teddy. He went to State convention saying that he would be elected temporary chairman. He returned home sorrowfully. Teddy is determined to have his way in New York if it splits the party and it appears to be considerably split.

A prominent Whitley county gentleman, one who is in position to know, stated a few days ago, that Caleb Powers spent \$93,000 in the recent primary between him and Edwards. He further stated that this money was given him while in prison, that he would have to spend \$90,000 more if he defeated Bertram.

The passport of Angelo Albano from Italy has been found at New Orleans, and complications may now arise with the Italian government. It will be remembered that Albano was lynched at Tampa, Fla., two weeks ago. It will likely be up to this government to prove that the lynched man was an American citizen.

Col. Theodore Roosevelt was elected temporary chairman of the New York State Republican Convention at Albany by a vote of 563 to 443 received by Vice President Sherman, the nominee of the State committee. The Vice President was one of a committee of two to escort the Colonel to the stand. Col. Abraham Gruber, of New York, made a bitter attack on Col. Roosevelt on behalf of the "Old Guard."

Senator Bertram, Democratic candidate for Congress opened his campaign at Albany last Monday. It is said that he will constantly be on the stump from

now until the election. Other speakers will also take the field, and every effort will be made to get out the full Bertram vote. Everybody should become interested, keep busy until November 8th, then elect a man who will be a credit to the district.

DISTRICT CAMPAIGN COMMITTEE.

As stated in our last issue, very briefly, a meeting of the delegations of the various counties in the Eleventh district was held at the Newtonian Hotel Thursday night after the convention had adjourned, and it was decided to have the district campaign headquarters in Somerset and Woodson May, our State Central Committee man, was selected to have charge of the campaign.

Mr. May returned Wednesday from Louisville, where he attended a meeting of the State Campaign Committee, of which he is a member, and has opened headquarters in the Masonic Temple, and will soon have everything mapped out and the campaign under full sway. Nothing which can be done will be left undone in this campaign, and with victory as the watchword, the battle will be waged without ceasing until election day.

Chairman May will have the hearty co-operation of every county campaign chairman and local organization in the district in this fight.

Just now he is mapping out a plan for Senator Bertram, the nominee, with reference to speaking dates and will soon be ready to announce an itinerary for that gentleman. Local speakers in every county will be given all the work they can do, and the campaign will be a lively one. The Democrats see a chance to win and they are going to take due advantage of it.—Somerset Times.

Short Meter Sermons.

The noblest duty is the nearest one.

None ever regretted burying a slander.

The outcome of ingrowing piety is pain for every one.

It takes more than public generosity to correct private greed.

Side stepping duty will give you plenty of exercise, but no strength.

No one gets far in love's lessons without learning to hate heartily.

When a man is good because it pays, he may be judged by his motives.

Explaining the commandments is a common way of evading them.

The sins that are proud of being little are worth a lot of pains to kill.

Do your duty and your spirit of devotion will develop itself all right.

Almost any kind of iniquity will hide under the alias of conscientiousness.

Some men think they are almost good because they are afraid to be very bad.

No church ever lost by love for the weak sinner and a lash for the strong one.

Counterfeit tickets to heaven are good to almost every point on the other route.

Some have hard work getting any religion out of their hearts because so much was once forced down their throats.

Don'ts for Churchmen.

Don't preach on sunshine if you live in the fog.

Don't expect to attain greatness if you cannot admire it.

Don't try to preserve faith by embalming it in ancient verbiage.

Don't forget that truth is founded only by following what you have.

Don't forget that you may fight a lie, and still not follow the truth.

Don't fail to learn that character is what we wrest from temptation.

Don't overlook the fact that life's danger lies not in its heights, but in its cliffs.

Don't fail to learn that faith is often the sense for facts as set above all fallacies.

Don't get so anxious over impending storms that you shut out all present sunlight.

Don't forget that no man has so many friends that he can afford to despise any of them.

Don't fail to note that when the back of to-day is broken, it's always done by to-morrow's burden.

Don't fail to note the difference between seeing to do and doing in order to be seen.

Homemade Philosophy.

There is a life study in your back yard, but people like to go away from home to attend school.

Just as a wagon will drip mud on going from a dirt road to a paved street, so will the corrupt man drip mud after getting into good society.

If you awaken thought in a single human intellect, you have called at least one sleeper to life.

A sainted man is about like a

sainted mule—something out of the ordinary line of natural events.

Judging virtuous men by the elect of the Bible, I am puzzled to know what virtue is unless it belongs only to dead men.

Grammar is the educational wire on which grammarians string words. But it takes more than grammatical phrases to convey ideas and awaken thought.

Some people can't ride a hobby by any better than they can ride a bucking mule—they are always showing more light between themselves and the mule than is emitted from their head end.

A plaster of paris cat in the parlor is far more harmless than a nasty Paris dude who wears a two-for-five-cents title.

Tell your secrets to others, and then they won't be secrets any longer. Most secrets are like chestnuts—to be dropped in due time anyhow.

The people who are preceded by a brass band, precede their obscurity and go out with the tootings of a self-blown horn.

The troubles that don't happen are like the Toods that never come—there are others to follow.

Finnickey Finnukin.

1,000 Tears at \$1 Each.

Every day for three years a youth employed by a smelter in Colorado stole \$1 in gold.

He wanted to get married. The girl understood. She helped him guard his stealings. They decided that they needed \$1,000 for a start in married life.

Of course they got caught—just as they had gathered together the sum. Now it is a prison cell for the youth and probably for the girl, for the officer found the gold in her possession.

It is too bad that such energy was misdirected. The patience with which the gold was taken, dollar by dollar, never more and never less, was worthy of a better purpose.

It is the sort of courage that makes successful men, the tenacity and the fixedness of purpose which drives even men of moderate talents to the heights.

Suppose this youth and this girl had forgotten their dream of a \$1,000 "nest egg"? Suppose they had just loved each other enough to sacrifice, to do without what that sum would buy and had fought out the problem of living.

They might have saved that dollar a day, had they tried as persistently to save as they did to steal.

The girl might have had more wrinkles. Perhaps she might have been compelled to wear calico instead of dreaming about silks.

She might have had to sacrifice some of the pretty things, might have had to bear the pity of "friends" who would have told her she was a fool for marrying a poor man.

But her eyes would sparkle with pride as she went out at evening to meet an honest man, not a thief. His embrace would have had no inner tension of fear and guilt. And the end would have been a home, not a prison cell.

And if anyone believes that the old adage, "honesty is the best policy," was written by an

old fogey for copy books, let him look into the helpless eyes of the youth and girl in their Colorado prison.

Danger in Flirting.

"If the true life story of the 16,388 Chicagoans divorced in the last ten years were written, it would be found that the first station which led toward the Divorce court was frequently a romantic flirtation at an amusement park or fashionable summer resort."

This was one of the introductory comments made by the Rev. Percival H. Baker in a sermon on "The Pace That Kills" in Chicago recently.

"Flirting is a potent cause of that coarseness and bestial vulgarity which is doing so much to present to impair the beauty and diminish the power of American home life, degrading marriage to the low level of a convenience and to the still lower level of sensuality. Flirtations foster the social evil, he continued.

"The flirt is likely to discover simities in other homes and put his discoveries into practice. Thus flirting undermines the home, and Divorce court is only a step away.

Woman's Home Companion For October.

Here is a big, complete magazine for women and children. Here are fiction, fashions, serious articles, cooking and a dozen other practical subjects.

The Home Decoration and Handicraft Department, which is growing into one of the most important sections of this journal, comprises so many points of interest that any home-loving woman is bound to profit by it in some manner.

The special articles include, "The Story of My Boston Drawing-Room," by Julia Ward Howe; "Women as Theater-Goers," by Walter Prichard Eaton; "The Truth About Equal Suffrage," by Anna Steese Richardson, and a vital article upon tuberculosis and its prevention by James Jenkins, Jr.

Juliet Wilbur Tompkins, Mary Heaton Vorse, Fannie Heaslip Lea and Marie Manning are among the short story writers who find a place in the October number of the Woman's Home Companion. "True Love," a thrilling stage story by Hulbert Footner is now in its second part.

The Fashion Department seems to cover every possible need for the woman who wishes to be well gownned, and for the younger readers the Kewpies in verse and picture from one of many interesting features.

Father is Slain.

Defending his daughters against the brutal assault of a negro, Charles D. Hiller lost his life in his home in Chicago, Ill. William Jones is under arrest on suspicion of the double crime and his identification has been established, partly through a telltale bullet wound on his wrist. He was caught while sneaking from the Hiller house.

Mr. Hiller was aroused on the morning of the attempted assault by the screams of his two daughters, Clarice, aged 18, and Florence, aged 12. They were sleeping together and were awakened when Florence felt a rough beard on her face. In answer to the cries of the girls Hiller rushed to their room and in the fight which followed received wounds that caused his death.

The same negro, it is believed, entered the bedroom of Mrs. Elizabeth McNeibb and was frightened away earlier in the evening.

Leneye Was Jealous.

Something of what Miss Ethel Clara Leneye suffered as half mad with jealousy, she impatiently waited the fulfillment of Dr. Hawley H. Crippen's promise to make her his wife, was revealed this week at the session of the inquest into the disappearance of Belle Elmore, the murder of whom is laid to Dr. Crippen his typist being accused as an accessory after the fact.

Mr. Jackson, in whose house the girl had lived, said that Miss Leneye on March 12 last gave up her rooms, explaining that she was leaving to be married to Dr. Crippen. Prior to that, about the middle of February, Mrs. Jackson said, Miss Leneye appeared most miserable and depressed.

"Would you be surprised," said the girl, "if I told you that it was the doctor and Miss Elmore? He was the cause of my trouble when you first knew me. She is his wife and when I see them go away together it makes me realize my position, as to what she is and what I am."

Legal Tender.

In this age of progress and of fixed system of coinage and currency—the age of dollars, halves, quarters, dimes, nickels, to say nothing of the little brown penny, which is the most insignificant little piece that we Americans will countenance—few people pause to think of the olden days, when money was coined in so many forms that it required unceasing watchfulness to keep abreast of it. Children did not learn to count it in their lisping days then. It was a big part of early education to be able to know the value of the many kinds of money that circulated even in Kentucky, in the days of the con skin, mink skin, hog's head of tobacco, wolf hide, possum belt or otter coat.

A century of the time has not passed since a banking institution was an unknown quantity in Kentucky. Actual money was not needed to keep the wheels of commerce revolving. A con skin, otter skin, a 'possum or mink hide, or the shaggy coat of a wolf or wild cat, was legal tender. As late as 1812 these commodities were worth a fixed amount and played the part the silver dollars, halves, quarters and dimes do to-day. A hog's head of tobacco was a "big piece" of money in those days, and it was not an unusual sight to see a farmer, astride a horse or mule, or driving a slow-poking ox and dragging in his wake a hog's head of tobacco, with an improvised axle at each end, the hog's head rolling on the ground behind him.

He came from miles out in the wild rural country and stopped at any store his fancy dictated.

He "swapped" his tobacco for the necessities of life, such as were not produced in his own home. He traded it, at a fixed rate, for coffee, sugar, calico, and other useful things that were for barter in the stores. It was no unusual sight to see a trader loaded to the guards with pelts—all having a fixed common value. These he exchanged for what he desired, and in turn they circulated instead of a better money.

The patrons of this district are very deeply interested in the school and most of the children seem to be doing excellent work.

Mr. J. R. Christie is in Louisville this week buying his fall stock of goods.

Dr. J. C. Goe passed through here this week on his way to Louisville, was talking of going west before he returned home.

Mr. Johnson Humphress and his brother J. J. Humphress, of Knifley, visited their parents Wednesday night, Mr. and Mrs. James Humphress, near Watson, and found them in very feeble health.

The school at Hovious is moving on nicely with Mrs. Frona Shively as teacher. She says it is a very pleasant place to teach.

Dr. Hovious was buried at the old Enoch Harden grave yard last Sunday.
